OUTLOOK: Persistent monsoonal moisture will again bring thunderstorms to the Southwest and central Rockies. A strong weather disturbance moving across Washington and Oregon will provide the potential for thunderstorms over eastern Oregon, eastern Washington and northern Idaho. The remainder of the West will see sunny skies. Winds may gust to over 20 MPH in portions of southern Nevada, northern California, eastern Oregon, Washington and central and northern Idaho. High temperatures will be cooler, with 70's in the Northwest, 80's 90's in the Great Basin, and 90 to 100 degrees in the desert Southwest. Northern Minnesota will have a weak front passing over causing partly cloudy skies with highs in the upper 70's and east winds at 10 MPH. High pressure will bring sunny skies and cooler temperatures to the northeastern U.S. Highs will be mostly in the 70's with a few 80's to the south, with winds from 10-15 MPH at times. Fire activity is expected to remain moderate in most areas. Demobilization from the fires in the Eastern Area is expected to begin.
